MINING, BUSINESS AND STOCKS.

MEETING SATURDAY TO DISCUSS MILL

Report That Action Will be Taken on Proposition Made to Knight Companies.

It is reported on apparently good authority that a meeting will be held tomorrow to decide whether or not a mill will be built for the treatment of the Iron Blossom and Colorado ores. It has been understood for some time that local mining men had offered to erect such a plant for the Knight companies and to treat the ores on a royalty basis, but the Knight interests were unable to decide as to the action that would be best. It is also said that John Dern is the man behind the proposition. That he understands the cyanostion. That he understands the cyan-ide treatment is a generally conceded fact, for he has operated the Mercur-plant, and it has been understood that his capital was responsible for the Boston-Sunshine, which has been a very profitable lease during the past

The silicous ores in the Colorado are claimed to be ideal for cyanidation. Some of them show as high as 34 per cent silica. With such a clean ore as that, the excellent saving should be made. The Iron Blossom ores are somewhat different. The siliceous ores carry some Iron, barite and other vein materials which might interfere somewhat with the work but after proper classification some mill experts think that they could be handled at a hand-some regit

some profit.

As to the attitude of the company toward the acceptance of the proposi-tion, little is said, but the matter is of considerable importance to local people and to the stockholders of the com-pany, but the general opinion as quoted by an interested party seems to be that if a proper saving can be made that the company will accept the of-

MARKET STILL WEAK.

Some of the Tintics Hold, However, And Give Strength to Quotations.

The selling pressure on the local exchange has not yet been relieved and prices in the more unstable stocks still continue on their downward trend. Iron Blossom sold higher and Uncle Sam held well but Black Jack, Colorado, Columbus, May Day, Prince and South olumbus were a target for the bears Uncle Sam declared a 5 cent dividend Thursday, which is payable Dec. 20 to holders of record on the 13th. Trading on the open board was confined to Gold Chain, which sold 1,800 shares at 37. Chain, which sold 1,800 shares at 37. Bingham Copper was offered at 12½. Uintah Treasure Hill at 4½. Federal Ely at 8. McDonald Ely at 10. Ely Witch at 10, and Thompson and West Quincy each at 15. Bingham Central Standard was 12½ bid at 14, Opex 10 at 12. Ploche Golden Prince 4 at 6. Daly 50 at 75 and Seven Troughs Coalition 34½ at 40. The total sales were 19,-310 shares, valued at \$4,115.40.

EASTERN PRINCE STARTS. Work has been started on the Eastern Prince, which joins the Prince Con-solidated in Ploche. The old shaft was sunk with a windlass, but it is being enlarged and straightened, and a twocompartment shaft will be made from

MOSCOW SHIPS.

Settlement sheets have just been received by the Moscow mine in the Star district, Beaver county, for a car of ore averaging 74.9 ounces silver, 26.2 er cent lead, and 3.87 per cent copper per cent lead, and 3.8, per cent copper in addition to some gold values. This ore has been followed from the sur-face and comes from a winze on the 400 which is over 125 feet deep. The ore body is said to be larger than the winze and very strong.

CHEAP PRODUCTION.

It has been estimated that the Neva-It has been estimated that the Neva-da Consolidated will show a total pro-duction of over \$4,000,000 pounds of copper for the year to end Dec. 31, 1910, says the Boston Financial News. The Nevada Consolidated holds the The Nevada Consolidated holds the distinction of being one of the lowest cost producers of the large copper mines of the world. The low cost of production during the past year has done much to establish this record. The indicated cost of producing copper at the Nevada Consolidated during the past year is about 7 cents per pound, is past year is about 7 cents per pound, is based on figures for the previous qua ters, with estimates for the months of October, November and Decem.er

ELY CON. CLOSED.

Operations at Ely Con. have been suspended awaiting the arrival of a new boiler, which has been shipped. On its arrival, the company will sink the shaft and crosscut on the 100-foot level for the ore exposed in the drifts above. The shaft is in a sulphide formation.

STAR MILL CLOSED.

Reports from Cherry Creek, Nev., are to the effect that operations at the Star nill of the Glasgow and Western Ex-ploration company suddenly ceased, mill of the Glasgow and Western Exploration company suddenly ceased, when orders were received by telegraph to shut down the mill at once. Why the order was given or how long the mill will remain idle is unknown at present nor can anyone figure out the reason. About 20 men were thrown out but about half of them, it is reported, found work in the mine where operations will be continued. The mill is the fourth erected for the property and has a capacity of 100 tons a day bring equipped with a concentrating and cyanide combination process.

LEAD ORE BELOW 1600.

A report from Bingham says that in A report from Bingiani says that in a winze on the 1,600-foot level of the Brooklyn mine, owned by the Bingham Mines company, a high grade lead ore body 12 feet wide was uncov-ered. A station is now being cut and drifting will commence as soon as possible. It is said that it will assay well and on account of the scareity of lead ores at the present time that the company will realize a handsome profit from it. This part of the mine is that which has been under water since 1907.

NEW GOLD STRIKE.

A new gold strike about 20 miles northeast of Rawhide and about 10 miles from Schurz has been reported in Rawhide and already there is said to have been more or less of a stampede toward that section. It is reported that there is one ledge claimed to be 10 feet wide, surface croppings of which run as high as \$86. The placers in the guiches are claimed to be even richer.

CEDAR WILL SHIP.

Cedar Talisman in the Star district, in Beaver county, has been making steady shipments of zinc ore to the smelters in Oklahoma, but now two cars of lead-silver ore taken from the drifts being run to the contact and from other places in the mine are ready to be marketed.

INCREASING ACTIVITY IN PIOCHE DISTRICT

George E, Coxe of Pioche Coalition Tells of Work in Nevada Camp.

George E. Coxe, general manager of the Pioche Coalition Mining company is in the city from Pioche and is very enthusiastic about the possibilities of that section. The Pioche Coalition is a merger of the Lowe interests in that camp. It includes the Pioche Golden Prince, Gold & Silver Prince, John D., Treasure Hill and Monarch groups comprising 36 claims in all, with a comprising 36 claims in all, with a strike of about one and one-quarter miles on the Yuba Dike. The Yuba Dike runs northerly. This ground joins the Ploche King on the north and besides having the Yuba, it is claimed that the Prince fissure extends northerly into their ground also. In speaking of the developments in the camp, Mr. Coxe said:

"The shaft on the Ploche Golden Prince is down 500 feet with a station below. Yuba Dike runs east of the shaft, but is faulted and thrown 187 feet to the west right near the shaft.

shaft, but is faulted and thrown 187 feet to the west right near the shaft. A drift run west on the 500-foot level cut this dike and from that point 135 feet further to the west the drift is practically all ore. I consider that igneous intrusions are the genesis of ore bodies. The ore here was probably secondary to the intrusion of the dike, for the dike filled the break and then the ore bearing solutions entered and filled the smaller fisand then the ore bearing solutions entered and filled the smaller fissures caused by this intrusion and in cases spread out on the bedding planes. This dike where we hit it on the 500 is about one half ore and one half porphyry. The lima beds dip toward the drift and on the beds running away from the dike we have ore 14 feet thick. Then in the next 135 feet already referred to, there are seven fissures, about vertical in which ore is found. I believe at depth that these will all make to the same place, going toward the dike and depth that these will all make to the same place, going toward the dike and prove to be a vast ore body. In addition, these fissures are not lenses, for we have opened them on the strike. The prophyry dike on this level is 35 feet wide, It looks to the north as if it would go back to its regular course. On the Ploche Gold & Silver Prince, the shaft is down 265 feet. There is some low grade ore here. There is some low grade ore here. There is also a good showing on the Monarch.

PIOCHE DOUBLE DIKE. "There is considerable activity in the camp and nearly all of the smaller properties are planning development work. The Pioche Double Dike has been recently financed by strong Wyo-ming capital and eastern men as well. A plant is being installed onthe property and a double compartment shaft will be started. I think that the Double Dike is among the best of the unprospected groups in the camp. The Prince Fissure and the Yuba Dike intersect in this property. There are better indica-tions on the surface than on any of the other properties through which these occur for there is ore at the surface. The Yuba Dike has been a famous pro-ducer and I see no geological reason why there should not be a large and rich ore body at the intersection, es-pecially since there are such good sur-

OTHER ACTIVITY.

"The Ploche King is drifting east to cut the dike, and I think that perhaps they will yet have 50 or 75 feet to run. The ground is beginning to

The centennial Pioche is installing a compressor and pump and a 50-h, p. engine. According to Supt. Lloyd, who knows the district about as well as any operator there, the bottom of the shaft looked good for ore. "W. S. Anderson, who has been work-

ing in Stampede Gap on the strike of the Yuba dike, has opened up some high grade ore. He is close to the Manhattan in the Nevada-Utah coun-

"In the Highland district. Wheele has a good showing. Ed Freudenthal in the Maggie Murphy and Colfax is getting results. "Over at the Gold Chief, which is be-

tween Pioche and Callente, a pipe line has been installed and a new mill is about ready for operation. This is owned by Pioche and Portland people."

RETURNS FROM TINTIC.

E. G. Woolley returned from Tintle Thursday evening from a trip to the Opothongo, Gold Chain, Mammoth, and other properties. While not giving any detailed information, Mr. Woolley detailed information, Mr. Woolley stated that conditions in those proper-ties look good to him; that the Gold Chain was building an ore house at the mine and other properties were showing favorable developments.

ANDERSON GIVEN LIBERTY.

Admitted to Bail by Judge Whitaker This Morning.

C. V. Anderson was admitted to bail in the sum of \$750 by Judge Whitaker this morning following his arraignment in the civil division of the city court this morning. Application was made for a reduction in the amount of ball from \$2,500 to \$750 and granted, whereupon the case was transferred to the court of Justice Hanks Anderson furnished bail bond. with Martin Christopherson, D. P. Felt and George Beard as sureties and was re-

Mrs. Anderson was with her husband early this morning, as she was immediately after his lodgment in the county jail last night. She is heart-broken and both Anderson and his wife deny themselves to interviewers.

Anderson has admitted to Sheriff Sharp that he signed the fraudulent warrants which he is accused of issuing and to drawing the money of the warrants. He had made a similar admission, it is declared, to the coun-ty commissioners before leaving Salv Lake for Canada and to this admis-sion is attributed his dismissal a supervisor of the infirmary and his

FUNERAL OF JOSEPH TAYLOR.

Services in Honor of Departed Missionary Held in Fourteenth Ward,

The funeral of Elder Joseph Taylor, who died on November 14 while on a mission in Germany, was held from a mission in Germany, was held from the Fourteenth ward meetinghouse this afternoon at 1:30 o'clock. The services were under the direction of Bishop E. S. Woodruff of the Fourteenth ward. The opening hymn "O, My Father," was sung by the choir. The prayer was offered by President Frank Y. Taylor of Granito stake. The choir sang "Earth With Her Ten Thousand Flowers." Elder John W. Clawson, who labored with Elder Taylor in the mission field, was the first speaker and he was followed the first speaker and he was followed by B. S. Hinckley. President George R. Emery of the Salt Lake stake, Elden Heber J. Grant, and Bishop Woodruf, were the next speakers. Elder Cannon, a missionary companion of Elder Taylor, pronounced the benediction. The floral offerings completely cover-ed the casket and filled the stand. The pallbearers were made up of friends nent was in the city cemetery.

WARD **ENTERTAINMENTS**

Twentieth Ward—Owing to the success which the operetta, "Penclope," has met with, it will be repeated in the Twentieth ward amusement hall tonight at \$:15 o'clock. Special features have been provided, which will be staged between the acts, consisting of a doll drill by 16 of the Sunday school girls, under the direction of Miss Emma. Beebe; recitation by Don Carlos Wood: bar'tone solo by Charles R. Pike, and Scotch dancing by Misses Viola and Scotch dancing by Misses Viola and Bessie May Service.

Third Ward—Tonight the Third ward Sunday school will give an entertainment in the amusement hall, commencing at 8 o'cock, consisting of gymnastic drills, solos, Gipsy scenes and songs from the opera "Bohemian Girl," concluding with a laughable farce entitled "Who is Who."

Eleventh Ward—A Christmas rum-mage sale will be held by the Relief Dec. 13 in Unity hall, beginning at Dec. 13 in Unity hall, beginning at

S. Smith of this city. The visitors are delighted with what they saw here.

Badger Brothers | STOCKS FEELING MORE BUOYANT

New York, Dec. 9.—The decision of the United States circuit court in Pennsylvania in the case of the Temple Iron

United States circuit court in Pennsylvania in the case of the Temple Iron company, declaring the corporation illegal but otherwise sustaining the rights of the coal companies which control it, was evidently favorably construed in Wall street today. Opening prices, particularly of the coal carrying roads, showed substantial advances, Lehigh Valley advancing 23 and Reading 23 in the early transpactions. Elsewhere in the list gains ranged from a point to material fractions on fairly heavy trading.

About a score of stocks, including Union Pacific, Southern Pacific, Northern Pacific, New York Central, Rock-Island, Erie, U. S. Steel and American Smelting moved up 1, to 1½ before there was enough stock dumped on the market to drive prices back. St. Louis-Southwestern preferred opened up 3 points despite the cut in the dividend, but Missouri Pacific was sold at a loss of 3. On the reaction Lehigh Velley went back 14. Southern Pacific 14 and Reading and Union Pacific 1.

A close study of the principles involved in the Temple Iron decision seemed to lead to the conclusion that the outcome was not wholly favorable to the railroads. Although it is true that the holdings of these companies on the percentage basis of production are not affected, it is possible that no little ingenuity may have to be accounted to find some method of coal distributions. The market became dull in the second hour, but great activity towards midday set in and prices returned to near the earlier high level but did not hold very well.

Bonds were steady, Stock was met on all railies and this selling put Reading back to 146 and Union Pacific, Southern Pacific, St. Paul, U. S. Steel, American Smelting and Amalgamated Copper on a parity with yesterday's closing before it ceased. Speculation then became sluggish and without feature.

Slow upward progress was made during the late session, some of the specialties showing decided strength. Operations in the Earland Steels of the early afternoon gave

the Standard stocks were small and fluctuations narrow.

The market closed steady and strong. The heaviness of the early afternoon gave way to general improvement in the final hour and prices hardened all around. Renewal of gold imports rumors probably was a factor in the advance. Trading became inactive again at the higher level but advances were pretty well mintained. but advances were pretty well mintained to the close.

PRODUCE.

Chicago, Dec. 9.—After a hesitating start all grain prices today inclined to the side of cheapness. Selling of wheat was chiefly by the larger houses and was apparently based on lower quotations at Liverpool. The British market report demand to be poor with larger offers pressing from Manitoba and the Argentine. On the other hand, there were continued rains in France and the conditions for the winter crop in this country were unimproved. The opening was 18th lower to a shade up. May started at 96 to 931 covering the entire range of the market, touched 96181 and declined to 93.

Corn felt the influence of big consignments on the way here. Argentine shipments were also reported heavy. May opened \$3th off to a shade higher at 4th to 4th and settled around the lower level. Cash houses fed out all the oats the pit would take. May opened 1 higher to a shade lower at 34th to 3th and receded to 34.

Provisions went slightly higher, scarce-

to 34.
Provisions went slightly higher, scarcely any being on sale and commission houses competing to purchase. Higher prices for hogs formed an incentive for the advance. First sales were 5 to 32 up with May at 17.45 to 17625 for port; 9.82 to 9.872 for lard, and 9.50 to 9.672 for lbs.

salt.

Wheat—Decreased shipments from Australia, Indiana and the Argentine led to a little advance, but on the whole the traders were simply marking time. The close was casy with May at \$\mathbb{N}_1 \mathbb{Q}_1\$, a cot less of \$\mathbb{N}_2\$.

Traders were simply marking time. The close was easy with May at \$3\(\tilde{\ti
